**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Robert C. Kowert on January 10, 2005.
3. The application has been amended as follows:  
  
The first line claims 46-55 should be amended to read "computer readable medium" instead of "carrier medium".

***Allowable Subject Matter***

4. Claims 1-55 are allowed.
5. The following is an examiner's statement of reasons for allowance: the limitations regarding the migration of processes from a first device to a second device via an intermediary persistent store wherein each service constituting the process has a valid lease before the resumption of the process on the second device have not been found in combination with the remaining limitations of the independent claims. As understood from applicant's previous and current arguments, a persistent store is not temporary, volatile memory, but instead a physical, non-volatile hard drive or the like. The persistent state of the process on the persistent store is understood to be the state of each of the leases which may or may not have been expired (along with any other pertinent attribute or miscellaneous data).

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
